Re: Docket # 07-16

Dear Secretary Dortch,

Please work to provide internet access to more families in rural and inner-cities by approving the M2Z Networks plan for free, fast broadband access. Only 42% of American homes are connected to broadband internet and I believe this should be higher.

Internet access allows more teachers and students to find learning tools on-line; for lesson plans, projects, or searching for colleges. With broadband, it's easier to search for more information and communicate with each other. This plan would now make it affordable.

I urge you to consider this plan and open the internet to even more Americans, especially those who cannot otherwise access reliable, affordable broadband.

Sincerely,

Leah Osborne
